

[FOR IMMEDIATE RELEASE]

MKU AGAIN SECURES LANDMARK MULTI-YEAR CONTRACT FOR OVER 200,000 BALLISTIC HELMETS WITH A LEADING ASIAN ARMED FORCE

[Kanpur, India] — [12 July 2025] We are proud to announce that MKU has been awarded a major multi-year framework contract to supply over 200,000 advanced ballistic helmets to one of the most stringent armed forces in Asia. This project, spread over a multi-year delivery framework, represents one of the largest ballistic helmet programs in the region, reinforcing our position as a trusted partner in global soldier protection.

Our NIJ Level IIIA certified Kavro ballistic helmets were chosen after a rigorous competitive evaluation involving some of the world's leading defence manufacturers from Europe, Southeast Asia, and India. We emerged as the partner of choice once again with our proven track record in the region and the superior quality, lightweight design, enhanced comfort, and stability of our ballistic solutions. Notably, this supply also includes special configurations for paratrooper and airborne applications, underscoring the trust placed in our solutions by one of the world's most advanced armed forces.

Speaking on the achievement, Mr. Neeraj Gupta, Managing Director of MKU, said: "This win reflects not just the superiority of our technology, but also India's growing capability in defence manufacturing. We are honoured by the continued trust of our customers and remain committed to delivering protection solutions that combine cutting-edge technology with user-centric design. This project further strengthens India's role as a global exporter of defence technologies, aligned with the vision of Aatmanirbhar Bharat."

Each Kavro ballistic helmet is engineered to meet the unique operational requirements of our customers, incorporating advanced configurations for mission-critical reliability. The deliveries are structured over a sustained timeline, ensuring continuous support for the evolving needs of the armed forces.

This milestone is another step in MKU's mission to drive India's global defence exports and manufacturing excellence, aligned with the Government of India's *Make in India* and *Aatmanirbhar Bharat* initiatives. Our advanced manufacturing facilities, world-class R&D, and continuous innovation enable us to meet the demanding standards of elite forces worldwide.

ABOUT MKU:

MKU Limited is a global defence and homeland security company on a mission to empower heroes. They are one of the leading solution providers for advanced optronics and ballistic protection solutions for soldiers and platforms for military, paramilitary, homeland security, police and special forces. With a customer base in over 100 countries, MKU strives to empower heroes, who stand in the line of duty, through their smart solutions that deliver confidence. Their operations are based in India, Germany and UAE. They have provided protection to over 3 million soldiers and 3000+ platforms, across 230 forces, till date. Their Kavro protection solutions offer enhanced ballistic protection, modularity and compatibility for missions, using smart technologies, design and functionality. These include ballistic helmets, body armours, ballistic shields and ballistic protection solutions for naval, air and land platforms and vehicles. Their Netro range of smart optronics devices provide excellent aiming, airborne, surveillance and situational awareness capabilities for handheld, weapon-mounted or head-mounted usage. Under Navro Platform Maintenance, MKU offers maintenance, repair and overhaul services, enhancing night enablement and upgrade of situational awareness, surveillance and recon capabilities of assets such as aircraft, helicopters, naval vessels, Armoured Fighting Vehicles, Infantry Combat Vehicles & Air Defence Systems.
